

Schedule 2 – Insurance Programme**PROGRAMME FOR THE INSURANCE OF EXPORTERS' LIQUIDITY LOAN PORTFOLIO - COVID-19 MEASURE OF THE GOVERNMENT OF THE REPUBLIC OF CROATIA TO SUPPORT THE ECONOMY**

Programme for the Insurance of Exporters' Liquidity Loan Portfolio – Covid - 19 measure (hereinafter: the Insurance Programme) is implemented by the Croatian Bank for Reconstruction and Development (hereinafter: the Insurer) within the framework of its export credit insurance business for and on behalf of the Republic of Croatia as one of the Government's measures to support the Croatian economy in view of the difficulties caused by the COVID-19 pandemic.

Nature and form of the measure

The measure will be implemented in such a way that the Insurer will offer to banks to conclude agreements on cooperation under the Insurance Programme, which will cover up to 50% of the principal amount and the regular contracted interest, interest during the disbursement period and interest during the grace period under new liquidity loans to exporters.

The measure is open to all banks in the Republic of Croatia operating in accordance with the Act on Credit Institutions and to HBOR (hereinafter: the Insured). In order to avoid providing of support to credit institutions, the measure relates only to new liquidity loans, and not to the already existing ones.

Duration of the measure

The Insurance Programme will be implemented until 31 December 2020.

Beneficiaries of the measure

Final beneficiaries of this measure are exporters in the Republic of Croatia in accordance with the Eligibility Criteria for the inclusion of loans in the portfolio with regard to the Borrower that require liquidity for their activities, because they face difficulties as a result of the pandemic caused by the COVID-19 virus (entrepreneurs that are not in difficulties and/or entrepreneurs that were not in difficulties on 31 December 2019, but that have experienced difficulties in their operations as a result of the pandemic caused by the COVID-19 virus, according to the press release of the Croatian National Bank).

Under this Insurance Programme, aid cannot be granted to entrepreneurs that are subject to an outstanding recovery order on the basis of a previous decision of the European Commission declaring the aid illegal and incompatible with the internal market.

Sectoral and regional scope of the measure

The measure is open to exporters from all sectors and will be applied in the entire territory of the Republic of Croatia.

The Insurance Programme enables the insurance of liquidity loans with a grace period of up to 1 year and the Repayment period of up to 5 years. The loans are approved by the Insured to entrepreneurs having generated in the previous business year for which the official financial statements are available, at least 20% of their operating income from export revenues or having generated at least 40% of their income with one or several exporters¹ (hereinafter: the Exporters).

The Insurer will conclude the Portfolio Insurance Agreement with an individual Insured, and by this Agreement, their business cooperation on the implementation of this Insurance Programme is

established. By this Agreement, the Insurer insures from non-payment the Loans that the Insured has included in the Portfolio with up to 50% coverage for the principal and Contracted interest (regular interest, interest during the disbursement period, and interest during the grace period). The Insured will not submit individual applications for insurance, but will include loans in the insured portfolio independently and report to the Insurer on such loans on a quarterly basis.

The loan insured under this Insurance programme may also be covered by another guarantee instrument, provided that it is not from the national funds of the Republic of Croatia. In such cases, the Insurer will be able to negotiate a lower percentage (%) of insurance coverage with each Insured.

In the recovery, inflows from all collaterals contracted for a loan, including other guarantee instruments that are not from the national funds of the Republic of Croatia, if contracted, will be shared between the Insurer and the Insured in proportion to the amount of contracted insurance coverage.

An integral part of the Portfolio Insurance Agreement are, among others, the General Terms and Conditions of Insurance of Exporters' Liquidity Loan Portfolio - Measure Covid -19 (hereinafter: General Terms and Conditions) that include the rights and obligations of the Insured and the Insurer. In case of discrepancy between any of the provisions of the General Terms and Conditions and the provisions of the Insurance Programme, the provisions of the General Terms and Conditions shall apply.

Insurance premium

The Insurer shall charge the Premium for the Loan insurance from the Insured.

The Insured undertakes to pay to the Insurer the Premium for each Loan included in the Portfolio. The Insured calculates the Premium once for each Loan on the occasion of its inclusion in the Portfolio and displays the calculated amount in the Notification on inclusion.

The Premium is stated and charged in HRK, and for conversion, the selling rate of the Croatian National Bank on the day of invoicing by the Insurer is applied. The Insurer shall issue to the Insured an invoice for the Premium based on the Premium calculation set forth in the Notification on Inclusion.

The loan duration in years is calculated as $(\text{Loan duration in days} / 365)$ and is rounded to two decimals.² The Premium for an individual year of the Loan duration is calculated as follows: *Approved Loan principal x Annual premium rate for an individual year of the Loan duration (in Table 1).*

The Premium for each Loan is calculated as the sum of Premiums for each year of the Loan duration.

In case the Loan duration is not a whole number of years, the Premium for the last year of the Loan duration will be reduced in proportion to the duration of that year of Loan duration, expressed in two decimals.

Table 1: Annual premium rates (p.r.) with Coverage rate of 50% for each year of the Loan duration expressed with regard to the Exporter's size

Size of entrepreneur	Premium rate for 1 st year	Premium rate for 2 nd year	Premium rate for 3 rd year	Premium rate for 4 th year	Premium rate for 5 th year	Premium rate for 6 th year
SME	0.15%	0.25%	0.25%	0.5%	0.5%	0.5%
Large	0.25%	0.50%	0.50%	1.25%	1.25%	1.25%

² For the calculation of the Loan duration in years and the Extension of the Loan repayment period in years, the calculated number of days in February, whether a leap year or not, is 28.

Example: loan with the Loan duration of 1278 days, i.e. 3.50 years, for SME = premium for the 1st year of the Loan duration (loan principal x 0.15%) + premium for the 2nd year of the Loan duration (loan principal x 0.25%) + premium for the 3rd year of the Loan duration (loan principal x 0.25%) + premium for 0.50 year of the 4th year of the Loan duration (loan principal x (0.50 x 0.5%))

If the total Loan duration due to the Loan disbursement period is more than 6 years (1 year grace period + 5 years of repayment), for each year of the Loan duration after 6th year, the equal premium rate as for the 6th year is applied.

If the Insurer and the Insured by the Portfolio Insurance Agreement for cases in which the Loan is secured by another guarantee instrument that is not from the national funds of the Republic of Croatia, contract a lower Coverage rate, then the corresponding premium rate from Table 1 will be reduced to the lower contracted Coverage rate, in the manner that the premium rate from the table be multiplied by $(2 \times \text{contracted Coverage rate (in \%)}).$

Loan approval

Loan approval is performed independently by the Insured in accordance with its own assessment of the Exporter's creditworthiness and in accordance with its own procedures. In this respect, the Loan that the Insured wishes to include in the Portfolio must fulfil the **Eligibility Criteria for the inclusion of loan in the portfolio defined by this Insurance Programme** and the Portfolio Insurance Agreement. Within the framework of the Portfolio Insurance Agreement, the Highest portfolio volume and other specific terms and conditions of insurance will be determined.

The Insured includes Loans in the Portfolio in the manner that upon the expiry of each Calendar quarter, it submits to the Insurer the Notification on Inclusion that will contain the data on all loans that it wishes to include in the Portfolio and for which the Loan Contract has been concluded in that Calendar quarter. Pursuant to the mentioned Notification, the Insurer shall submit to the Insured invoice for the Premium. The Insured is obliged to report quarterly to the Insurer on the Loan balance, on repaid Loans, on the change of the Loan repayment period, and once a year on recovery of the Loans for which the Indemnity was paid.

Indemnity

In the case of non-payment under the Loan, the Insured shall submit to the Insurer a Claim upon the expiry of 30 calendar days from the Day of calculation and the attached documentation defined by the General Terms and Conditions. The Insurer will give its response regarding the submitted Claim within 35 calendar days. In case the Claim has been accepted, the Insurer will pay the Indemnity in the amount of up to 50% of the Loss to the Insurer within 10 calendar days.

The Indemnity is stated and paid in the Loan currency or upon request of the Insured in HRK equivalent amount at the selling rate of the Croatian National Bank on the payment date.

Before the Indemnity payment, the Insured shall conclude the Recovery Contract with the Insurer by which, among others, their rights and obligations in respect of receivables collection under the Loan after the Indemnity payment are regulated.

Recovery

The recovery from the Exporter, after the paid Indemnity, is made by the Insured independently, for its own and for the Insurer's claim. In case of recovery, the Insured shall be obliged to forward to the Insurer up to 50% of the collected amount, or in accordance with the contracted Coverage rate if it is lower than 50%, respectively.

The Insurer shall compensate the Insured for up to 50% of incurred Costs of Enforced Collection, or in accordance with the contracted Coverage rate if it is lower than 50%, respectively, provided that the Insured has obtained a prior or subsequent written consent for the mentioned Costs from the Insurer.

Change of the Loan repayment period

For Loans included in the Portfolio, for which no Indemnity has been paid, the Insured is authorised to modify the Loan repayment period on its own if the Extension of the Loan repayment period is shorter than 6 months or equals 6 months; in this case, the Insured is not obliged to pay an additional Premium. If the Extension of the Loan repayment period is longer than 6 months, then the Insured is authorised to modify it on its own, provided that such Change of the Loan repayment period is made due to business reasons, i.e. further need of the Exporter for liquidity funds and provided that on the day of the change approval, the **Eligibility criteria for the change of the loan repayment period due to business reasons** have been met. In the mentioned case, the Insured is obliged to pay additional Premium to the Insurer.

Below are the **Eligibility criteria for inclusion of loans in the portfolio** that must be met so that the Loans may be insured:
